
BREAKING HIS SILENCE

Aloba (Ali Akbar Shapurzaman)

Mandali Hall, Meherazad, India

ALOBA: Avatar Baba dropped body, Baba is not dead. Baba, God cannot die. From a worldly view point, by physical sight, Baba left us. His body is at Meherabad. But He is relaxing there. Baba says in one of His circular, "I will retire in my crypt under the dome on Meherabad Hill for spiritual relaxation for an indefinite period from 1st January, 1942", like that.

See, Baba mentions there, Baba dropped body 31st January. Years back Baba say, "I will retire in the dome 1st January." And Baba, Baba did not say, "I will die, my body will be there." No, "I go there, I retire there in the crypt under the dome on Meherabad Hill for a spiritual relaxation for an indefinite period."

Baba said everything, knew the fact, Baba knew the fact but because we are impatient, we want everything hurriedly, whether it's wrong or right, just give us. We are very impatient [inaudible] above.

So Baba gave us a secret wrapped in words [inaudible]. Now what will happen, when the time come, Baba will come out, Baba will come out physically. Physically means like this, this body, physically.

Even at Guruprasad, suddenly Baba told Jehangir Sukhadwalla, Gulnar's husband, in Poona. "Go and fetch Mrs. General Bhandari, wife of General Bhandari." She came, she was sitting in the Mandali Hall. That time was not gathering time, Sahavas

time, just Mandali were there, few Mandali were there, intimate Mandali and she was there. Jehangir Sukhadwalla was there.

Baba told everyone that, "I will appear physically in this world thousand places at a time." Everywhere. Thousand place, Baba will appear physically. What will happen, Baba will give us the Word. Baba said, "When I break my silence, the breaking of my silence will be like thousand, hundreds of thousands," see what Baba says, Baba says, "The breaking of my silence will be like, just like hundreds of thousands of atomic bombs exploding together at a time."

When one atom bomb explodes, what a noise it creates. Baba says, "Hundreds of thousands of these atomic bombs exploding together. This will be impact my silence. It will touch every heart, every heart in this world." Whether in the Himalaya or in the Siberia or in the North Pole or in the South Pole, any place, everyone will hear this one thing.

Then what will happen. They want to know whose voice is [inaudible], from where it came? Then they see Meher Baba. Then everyone will be confident without doubt that this is the expected one.

Now see, in every religion of this world now there is chaos and confusion. Christians think the second advent of the

Christ will come and it's not Imam Mahadi, not Sahire zamaan, not that. Muslims say, "No, no, no, they are wrong. The second advent will not come, Imam Mahadi will come, Sahire Zamaan will come."

Hindus say, "No, no, no, it is all wrong, Kalki Avatar will come."

So the Buddha says, "Second Buddha will come."

All are right and all are wrong. When Meher Baba comes. He will, everyone will accept Him. I give you one simile. Take it in this way. It is night time. This room, this hall, is in pitch dark, no light, pitch dark. You lost your ring and your ring is here, here. And everyone in the dark of the night, searching, searching. Now, see, take this light, 5000 watt [inaudible] tubelight. So the moment this light opens, eye go there because in darkness you could not find it. Now when you see the ring, search is over.

So in this way, the whole population of this world, now, the world, even one percent of this world they don't know Meher Baba. It is not that few thousand Americans come here or few thousands, few lakhs people in India, people know Meher Baba. This is not all in all. The world is very big. Five billion, five thousand million is the population of this world now.

All Muslim countries, they don't know Meher Baba. Egypt, Saudi Arabia, [inaudible], Syria, Libya, they don't know Meher Baba. Some of them even did not hear His name. Even those who heard His name, they did not believe that Meher Baba is God. [inaudible].

All right. China, So big China, they don't know Meher Baba. Russia, very big Russia, they don't know Meher Baba. Right. Now, in this world, Meher Baba has to do His work. Meher Baba is God, He will do His work in a perfect way, where He manifest and the next [inaudible] is, with these two things, the whole world will come to know Him.

Baba said, "The greatest miracle of me, Meher Baba, is when I break my silence." Greatest miracle. Baba does not perform miracle. See Baba performed miracle but very, very tiny, very small. Someone was sick so they remembered Baba, they got job, all right. Someone out of Job, he want job, Baba gave Him. Some other things, some other things, some other things, in this way Baba did. But Baba did not perform miracle universally, that effect the whole world.

At the time of Moses, Moses performed one miracle, that [inaudible] follow and Moses [inaudible] his stop and that become a big, very big huge dragon and all these things, you know. Baba has not done any miracle of that type.

People say why Meher Baba did not perform miracle? Baba told them, time will come when I perform miracle.

So, the moment Baba breaks His silence, biggest miracle [inaudible], it will happen and everyone will be satisfied. After Baba breaks His silence, for one year, Baba will be in this world. And after that, Baba will leave from us physically and then in this time, in this one year time, the whole world will be purified, heart will be cleaned.

Now the whole world is filled with animals. [Aloba makes animal sound] You know, they cut the pockets? School, child go to school, you know. Seven or six year child go to school. They come, for a little money, even they cut the ear of the innocent girl.

PILGRIM 2: What does it mean for cutting the ear?

PILGRIM 3: Earrings. Gold earrings.

ALOBA: Golden earring. Lady stands at the bus stop, you know. Lady stands at the bus stop waiting for bus. A shrewd person comes [Aloba makes a swoosh sound], now he takes away the handbag. Now the lady can't catch, chase, caught, ran. [inaudible] still [inaudible] a boy, boy of fifteen years [Aloba makes a swoosh sound] swiftly, snatch the handbag, ran away, "Hey, my handbag, handbag."

By that time people come to know of this, they are gone. It is one of the, one scenery out of millions that happens in this world everyday. By little money, 2 rupees, 5 rupees, 2 dollars, they kill person. [inaudible] Those who are staying the house in the night, they are shivering, fearing, what will happen now. Why?

Why it happened now?

Because the man's mind, man's conscience here become sick, become dark. This became sick and became dark. Meher Baba says, "I am Awakener." Why He says, "I am Awakener."?

Now Baba says, "I have not come to teach but to awaken." Now see, what happens. How this is the man of this world. [Aloba mimics snoring] [pilgrims laugh] [cross talk] You see, No? You can't see. You cannot see. You can't tell anything. So? What should be done? Now Meher Baba [inaudible] Meher Baba do. And like this [Aloba mimics snoring sound]. Baba said, "I have come not to keep on [inaudible]. To awaken, first awaken the heart."

So, Baba will first [inaudible] awaken the heart, heart of not few people, whole world, whole world. Heart of all! Then they accept Meher Baba's God, because of this so much bad things that happened at that time, by that time, people became repentant of their bad doings and then when they see the glory of God, Meher Baba, automatically the heart will become pure, mind will become pure and a New Humanity will come up. When you read Baba's "Discourses", you know, in "Discourses", there is mention of New Humanity and this and that. This belongs to that time. Not now. That time.
