
Spiritual Revival in America

Delia DeLeon

Washington, D.C., USA

1978

01:37

DELIA: Two versions of it I hear. I understood that Baba said that His blood had to be shared on American soil but I believe He told Ivy Duce that, "America is thirsting for my blood."

The accident happened right in the heart of America, Prague, Oklahoma. I think that is the heart of America and He had told us right from the start that the spiritual revival would take place in America. And it is true you can see it happening, it's incredible, the stirring up. Even if people don't say "Oh, I am a Baba follower" or if they don't belong to a group, something is happening. They may not be ready to come to Baba just at this time but they are being stirred and awakened to something deep and how it will come about of course none of us know.

I think England had an important part because Baba's first visit was to England and He did give His first message and then the link was made. But He always said that it is America. And therefore, you all have a wonderful part to play in this marvelous upsurge from coast to coast, isn't it? Here on this East Coast and in California marvelous work is being done. And you have Myrtle Beach where Baba's many can go to.
